

Sport Premium Grant at Cannon Park 2017-2018

Background

The Government has continued to provide funding of £150 million per annum for the academic year 2017/18. This funding is being provided by the Departments for Education, Health and Culture, Media and Sport, and will see money going directly to primary school headteachers to spend on improving the quality of sport and PE for all their children and to develop healthy lifestyles.

The purpose of the funding is that schools will have to spend the sport funding in improving their provision of PE and sport, but they will have the freedom to choose how they do this.

Allocation

Funding for schools has been calculated by the number of primary aged pupils (between the ages of 5 and 11). Based on a full year all schools with 17 or more primary aged pupils will receive a lump sum of £16,000 plus a premium of £10 per pupil. Cannon Park received approximately £17,840 for the academic year 2017/18

Accountability

Schools will be held to account for how they spend the sport funding. Ofsted has strengthened its coverage of sport and PE within the Inspectors' Handbook and supporting guidance, so that schools and inspectors know how sport and PE will be assessed in future as part of the school's overall provision offered. Schools must publish, on their website, information about their use of the PE and Sport Grant. Schools should publish the amount of grant received; how it has been spent (or will be spent) and what impact the school has seen on pupils' PE and sport participation and attainment as a result, to help to ensure that all pupils develop healthy lifestyles.
